Jamestown Massacre

Former Warner Bros. Recording Artists

From 1968-1974, **Jamestown Massacre** was one of the hottest bands around, featuring excellent vocal harmonies in a wide variety of classic rock music. In 1972, the group traveled to Detroit to record six original tunes, one of which was **Summer Sun**. The song was picked up by Warner Bros. records and sold around the world. **Summer Sun** was a hit across the United States and held a #1 chart position for six weeks in Hawaii. In Japan, it reached #18 on the major Tokyo radio play list. In 1999, **Summer Sun** was re-released on Bob Stroud's **Classic Rock Roots Volume II** as the most requested song to appear on that CD. In 2003, **Summer Sun** was released on a Japanese compilation called **Million Hits Collection**. Its success is testimony to the timeless quality of good music and performance.

After a celebratory 30-year reunion concert for its fans, **Jamestown Massacre** reformed in 2002 with three of its original members: **V.J. Comforte (lead vocals)**, **Jeff Quinn (keyboards, guitar, vocals)** and **Glenn Messmer (drums)**. Two new players, **Larry Baran (lead guitar, vocals)** and **Tom Fezzey (bass, vocals)** joined the Band to recreate the classic rock of Yes, Steeley Dan, The Beatles, Van Morrison, Crosby, Stills & Nash, The Eagles, Three Dog Night, The Byrds, The Moody Blues, Blood Sweat & Tears, Toto, Kansas, The Doobie Brothers, Emerson, Lake & Palmer, Poco, America, Little Feat, Edgar Winter, Billy Joel and The Little River Band. The list goes on as the Band performs new songs of other groups and its own creations. **Jamestown Massacre** is an entertainment choice that satisfies younger and older audiences and attracts compliments even from musicians and sound engineers who know quality. The Band brings professionalism, enthusiasm, and pure vocal and instrumental talent to each of its performances.

Jamestown Massacre maintains a strong following and regularly communicates with its fans via email and postcards to promote shows and venues. Every performance is advertised on the Band's website and photographed so that fans may relive their experience and learn of other venues. **Jamestown Massacre** also advertises its shows in *Suburban Nitelife* and the *Illinois Entertainer* and readily provides entertainment buyers with posters and photos as needed to promote the performance. By choosing the Band, club owners and fest planners alike enter into a strong marketing partnership.

GREAT SONG! Just found you on the Internet and added Summer Sun to our rotation on air! Glad to share it. - Mike Shannon, Program Director, WQRR Oldies, 105.5 FM, Bedford, IN
... We first caught you guys at Bolingbrook and then went to see you at the Berwyn and Darien Fests! Your play list is very refreshing. No other fest bands we've heard play Crosby, Stills & Nash, Emerson, Lake and Palmer and Steely Dan. - Jim and Sue Sertich, Oak Lawn.
.. Thanks for putting on one heck of a show at our managers' meeting! The feedback was terrific, and you made it an event to remember. - Herbert Imhoff, General Employment Enterprises, Inc. ... Your band's choice of songs, vocal harmonies, musicianship and attitude were awesome! We truly enjoyed listening to the set and feel privileged to have worked with some local legends! Chris Edwards & BZ Dooley, Entertainment Chairs/Musicians/Producers, A Day in Our Village, Oak Park ... Thanks for the rockin' good time. You guys are as good as or better than you were at Downers Grove Youth Center! See you again soon. Bob Tripicchio, Wood Dale ... What a fabulous song! I L-O-V-E Summer Sun and included it on my website, "Harry's pop favorites of the 50' - 80's." Long live Jamestown Massacre! - Harry S. Anchan ... Not many bands sound as good as their CD. You guys did! - Mike Bihun, Coon Creek Country Days, Hampshire
